

Attachment C. Species Occurrence Predictions Derived From The California Wildlife Habitat Relationships Database

The California Wildlife Habitat Relationships database is a model which predicts wildlife occurrence based on habitat variables. CWHR was used to develop a list of potential species occurrence within the four proposed reservoir locations.

CALIFORNIA WILDLIFE HABITAT RELATIONSHIPS KEY

STATUS

FE (Federal Endangered) =1
FT (Federal Threatened) =2
CE (California Endangered) =3
CT (California Threatened) =4
CP (California Protected) =5
CS (California Species of Special Concern) =6
FS (Forest Service Sensitive) =7
BS (BLM Sensitive) =8
H (DFG harvest) =9

IMPORTANCE TO...

R= Reproduction
C= Cover
F=Feeding

SHRUB SIZE AND CANOPY CLOSURE CLASSES

Size Classes

1=seedling shrub (seedlings or sprouts less than 3 years of age)
2=young shrub (no crown decadence)
3=mature shrub (1-25% crown decadence)
4=decadent shrub (>25% crown decadence)

Canopy Closure Classes

S=sparse cover(10-24%)
P=open cover (25-39%)
M=moderate cover (40-59%)
D=dense cover (60-100%)

HABITAT SUITABILITY RATINGS

H=High (habitat is optimal for species occurrence can support relatively high population densities at high frequencies)
M=Medium (habitat is suitable for species occurrence; can support relatively moderate population densities at moderate frequencies)
L=Low (habitat is marginal for species occurrence; can support relatively low population densities at low frequencies)
U=Unsuitable (habitat is unsuitable for species occurrence; species is not expected to occur in this habitat)

TREE SIZE AND CANOPY CLOSURE CLASSES

Size Classes

1=seedling tree (dbh <1 inch)
2=sapling tree (dbh 1 to 6 inches)
3=pole tree (dbh 6 to 11 inches)
4=small tree (dbh 11 to 24 inches)
5= medium/large tree (> 24 inches)
6= multilayed tree (size class 5 trees over a distinct layer of size class 3 or 4)

Canopy Closure Classes

S=sparse cover(10-24%)
P=open cover (25-39%)
M=moderate cover (40-59%)
D=dense cover (60-100%)

HERBACEOUS HEIGHT AND CANOPY CLOSURE CLASSES

Canopy Closure Classes

S=sparse cover(2-9%)
P=open cover (10-39%)
M=moderate cover (40-59%)
D=dense cover (60-100%)

Size Classes

1=short herb (<12 inches at maturity)
2=tall herb (>12 inches at maturity)
